

FS GLOBAL REAL WEATHER New Editions

Introduction

Due to the new release of Lockheed Martin's Prepar3D Version 5 we at PILOT'S have decided to restructure the available editions of FS Global Real Weather. This ensures easier maintenance for each of the editions, especially since we had to bring FS Global Real Weather to a new platform for Prepar3Dv5. The available editions as of now are:

Old Edition	New Edition
FSGRW 32Bit (FS9/FSX/P3Dv3/X-Plane 10)	FSGRW 32Bit (FS9/FSX/P3Dv3/X-Plane 10) <i>(no change)</i>
FSGRW P3Dv4/XP11 Edition	FSGRW P3Dv4 Edition
	FSGRW X-Plane 11 Edition
-	FSGRW P3Dv5 Edition

I am an existing FSGRW P3Dv4/XP11 customer – what changes?

If you are an existing customer and you have purchased FSGRW P3Dv4/XP11 Edition, you can use the auto-update function to initiate the download and installation of the new build. The update setup will then guide you through the update process and install the correct new edition (or both editions if you use FSGRW for both P3Dv4 and X-Plane 11). **Your P3Dv4/XP11 Edition serial key will work in both the new FSGRW P3Dv4 Edition as well as the new FSGRW X-Plane 11 Edition and no additional costs will occur.**

Pricing/Crossgrade Information for the new editions

We have also updated crossgrade offers for the new editions of FSGRW as follows:

- There is no upgrade available for FSGRW 32Bit (FS9/FSX/P3Dv3/XP10) to any of the other editions.
- If you already own (or purchase) FSGRW P3Dv4 or FSGRW X-Plane 11 or FSGRW P3Dv5 and you register your serial key on our website, you can get each of the other two editions at a special crossgrade price. Just log on to <https://www.pilots.shop>, register your serial key and click *FS Global Real Weather* in the left menu to get access the those discounts.

Example: *If you have a license (or purchase one) for FSGRW X-Plane 11 Edition and you register your serial key on our website, you can get FSGRW P3Dv4 and FSGRW P3Dv5 edition using a cheaper crossgrade offer.*

HAPPY LANDINGS!
Your PILOT'S Team
